

# OrgChart Now

Smart Org Charts Wherever You Go

Cloud-based software lets you quickly and easily create, access, and share organisation charts online

## Why OrgChart Now?

Most organisations use tools such as Visio, PowerPoint and Excel to analyse their workforce data and create org charts. Creating and sharing detailed charts with these programs is a time consuming and painful experience.

OrgChart Now helps you by giving you tools to quickly and easily create professional quality charts and perform in-depth workforce analysis. Instantly highlight vacancies or contract positions even if your chart contains thousands of boxes. The ROI is simple – you save staff time, gain valuable insights into your workforce, and better align your company to your goals.

And because its web based, OrgChart Now makes sharing up-to-date charts with your colleagues almost effortless.

Connect directly to HR Systems, including:

	<b>Michael Burnette</b> CEO
Department	Executive
Flight Risk	No
Critical Position	Yes
Performance Rating	4
Headcount	25
